MARCH

Moparsunlimited.org

## President

Hello Mopar Fans I am Writing this article for our prez. Dave was out of town for a week, so he asked me to write this article. How about this weather. It is time to shine up those Mopars and bring them to Marches meeting. For you members who missed the dyno at Mustang Ranch in Black Diamond, You missed a great time. My Dodge Dart Sport 360 had 300 horsepower and 318 foot pounds of torque at the rear tires. There was a new Dodge Charger with one shot of nytrus that had 540 horsepower at the rear tires. The only other car with over 500 horsepower was a new Mustang Shelby that had 501 at the rear tires. Chris our events director brought his new Challenger and his wife Jen brought their Dodge Polara. Im sure in Chris's article he will tell you what his cars dynoed at. On Feb.27th the club had a tech session at Buffalo restoration But I couldn't make it. I am sure that one of our officers will put something in their article about it. That's it for now. Hope to see you all at March's meeting.  
Kyle Leftwich

## Secretary

Another rousing meeting has occurred. Large gathering and a lively discussion about a possible joint show with other clubs ensued. We always have a good time talking! Lots of events coming up, new members are joining and as with everything else in the world we need more money and sponsors for the Sunbust show. Any one with suggestions should contact an officer. Next meeting in March on the 17th!!! see you all then!!!! Diane

## TREASURER

We have a balance of total \$2,082.29 as of 2/25/10. With a deposit of \$70.00 from membership & raffle. There is 1 ck outstanding of \$56.55. Making the usable balance to \$2,025.74.

Dick

March

Well as always, February came and went quickly! It was a good and productive month for me, and I hope the same is true for all of you as well. We saw a few swap meets come and go, as well as a non Mopars Unlimited "Dyno Day" out at Horsepower Ranch. It was a very good event with 4 of our members attending. There were 32 cars in all, with almost all of them getting ready to race this year at Pacific and Bremerton raceways. With this weather it is driving me nuts thinking about the fact that the first test n' tune around the area is still more than a Month away, mark your calendars anyways; April 2nd and 3rd are the first days out in Bremerton.

We also had our monthly event right at the end of the month. I was unable to attend due to work (I should have just broken my foot again!) but I hear it was a good event, and the guys out at Buffalo Restorations had a good time. Coming up in the month of March, we have a few more swap meets, with March 7th being the big one of the year in Puyallup; the 4x4 swap meet, and the weekend afterward is the almost spring swap meet, held by the Model A club of Tacoma. Remember, you can still find a rare Mopar score at both these events. As for our monthly event, I actually planned ahead this month, and we will be getting a tour of Blood Enterprises. Located in Auburn at 3670 C Street NE, we will start at noon on Saturday March 20th, the start of spring. They specialize in engine building, tuning and suspension and brake systems. At this point I only have a tour planned for their facility, but if someone wanted to donate their car and some cash for a tune, they would be more than willing to put your car on their dyno and go through the steps of dyno tuning a car. If you would be interested in that, give me a call up, and I can set that portion of a tech session up. Well that's about all I have for this month, and remember. "Most muscle cars are hybrids, they burn gas and rubber."

## membership

Well hey everybody and Happy March. Can you believe that stretch of sunshine we had? I don't know about you all but I love seeing all the cars that come out in the sunshine. It just makes me want it be summer even more. So onto membership. We are currently sitting at 52 members and its only March. We got one renewal in February but no new ones. I have a feeling we will be getting a few new members this month (I have a few leads). I am doing my part in trying to recruit new ones..... how about you? I think I might have even converted a few from the Mopar Drag Team. You know what they say, the more the merrier. And boy do I like to be merry.

The event at Buffalo Restorations was awesome and we do plan on going back there for a more class like event. If anyone has any ideas on what they would like to learn, let me or Chris know. The people down there, owners Steve and Irene, Donovan their PR guy, and Mike, there all around car guru, were all very friendly and informative and more than happy to have us there. We were actually the first group to take a tour of their place since the new owners bought it so KUDOS everyone that showed. They also said that if anyone has any questions about their own restoration project to go down there and just ask. Or just shoot the shit with them. Like I said, they are more then accommodating to any car enthusiast. Muchos gracias to everyone at Buffalo Restorations.

Anywho, the officers meeting will be held at our house again this month. The date on that is March 10th and all are welcome. Everyone seems to enjoy an atmosphere where we aren't competing with screaming babies. It seems more stuff gets accomplished that way. Weird. And of course I look forward to seeing everyone at the meeting at Roundtable on March 17th. I already want pizza and we are still 2 weeks out.

On that note I am outta here. Remember to spread the good word about our car club and keep trying to recruit new members. We don't discriminate, from old Mopar to new Mopar, a car enthusiast is a car enthusiast. We like them all.
